Oklahoma Retail Feed Cost Report (Monthly)

10-17-25

Compared to last report: Feed prices were down across the board as October marks the start of winter feed pricing. Not all feed contacts have transitioned to winter pricing and additional price fluctuations are expected in next month's report. Summertime temperatures have continued through October but a cool front and chances of rain are in the forecast for this weekend. CME live and feeder cattle futures were hit hard, today, on news that the administration believes beef prices are to high. Feeder cattle futures back months were all down the limit, while auction prices soared this week with cattle quoted 10.00-30.00 higher.
