**Beaver Livestock Auction Feeder Cattle - Beaver, OK
8-4-26**

Receipts: 3,569 Last Reported: 1,101 Year Ago: 4,227
Compared to last sale: Feeder steers 15.00 higher. Feeder heifers in a light test 5.00-15.00 higher. Due to low receipt totals last week, steer and heifer calves too light to test, but higher undertone noted. Demand Strong. Quality attractive with several fancy drafts.

OKLAHOMA HAY MARKET REPORT

7-30-26

Receipts: 8,029 Last Reported: 160 Year Ago:0

Compared to the last report, hay movement has picked up. Due to the heat, hay producers across the state are having to run their equipment late at night and early in the morning. As a positive part of the heat, central and eastern parts of Oklahoma have been able to put up all types of hay. The west is still waiting for that rain shower to help them start or continue hay season. Unfortunately, the heat looks like it will be sticking around for the next few days.

The Oklahoma Mesonet Drought Monitor indicates that 2.10 percent of the state is experiencing exceptional drought, 15.68 percent is in extreme drought, 35.01 percent is in severe drought, 43.84 percent is in moderate drought, 64.40 percent is in abnormally dry conditions, and 35.60 percent has no drought conditions.

*** The next report release will be on August 21st ***

Oklahoma Production Cost Report (Bi-Weekly)
8-7-26

Compared to last report: Anhydrous posted the largest decline, falling 8% with all reported prices now below 1000.00 per ton. Other nitrogen based fertilizers were down modestly, while phosphates and potash prices were mostly steady. Continued hot and dry conditions have reduced demand across the fertilizer market. Farm diesel was the biggest mover among energy products, gaining 23 cents per gallon since last report. Propane prices finally began to ease after remaining largely unchanged for the past six months. Corn harvest season got underway this week as triple digit temperatures quickly dried out the corn crop allowing producers to begin harvesting across the state.

Oklahoma Retail Feed Cost Report (Monthly)
7-24-26

Compared to last report: This month's feed market has taken a turn from mostly steady to higher prices in commodity feeds. Some plants have simply stopped pricing commodities until they get a better handle on new crop yields this fall. With fewer suppliers actively pricing products and less competition in the market, feed prices have started to trend upward. Temperatures have climbed from the mid 90s into the triple digits. Negotiated cash fed cattle prices have fallen from 257.00-260.00 a month ago to 230.00-232.00 this week. CME cattle futures traded sharply lower over the past two weeks before beginning to stabilize this week. Input cost have also started to rise again, with average farm diesel prices now exceeding 4.00 per gallon. The feeder cattle market has softened over the past two weeks, with feeders declining 20.00-35.00 per hundredweight
