OKLAHOMA HAY MARKET REPORT

8-21-26

Receipts: 6,268 Last Reported: 8.029 Year Ago:1605

Compared to the last report, demand for hay is high. Due to the drought and cattle prices, cattle producers are calling all hay producers. All types of hay are being moved. All of Oklahoma is seeking rain. We have seen some showers but not enough to affect the drought monitor. Unfortunately, the heat looks like it will be sticking around for the next few days.

The Oklahoma Mesonet Drought Monitor indicates that 8.68 percent of the state is experiencing exceptional drought, 34.94 percent is in extreme drought, 62.21 percent is in severe drought, 94.64 percent is in moderate drought, 100.00 percent is in abnormally dry conditions, and 0.00 percent has no drought conditions.

*** The next report release will be on September 4th ***

Oklahoma Production Cost Report (Bi-Weekly)
8-21-26

Compared to last report: Nitrogen based fertilizer prices continue to decline as demand has weakened due to persistent hot temperatures and lack of rainfall across Oklahoma. Drought conditions continue to intensify across the state. This week 100% of the state is experiencing some level of drought. Severe drought has expanded from 53% of Oklahoma last week to 62% this week, while extreme drought has increased from 28% to 35%. Farm diesel prices continue to move sharply higher, with one contact increasing its price by 34 cents per gallon since yesterday. Propane prices moved slightly lower.

Oklahoma Retail Feed Cost Report (Monthly)
8-21-26

Compared to last report: Feed and commodities only had slight adjustments in prices. New crop corn is now over 5.00 a bushel. With drought in the Western Cornbelt and flooding in the Eastern Cornbelt, this fall's corn yields remain uncertain. The only thing that remains the same from the last report is the unbearable heat across Oklahoma with no relief in sight on the 10 day forecast. Negotiated cash fed cattle prices continue lower at 223.00-227.00. Input costs are mixed, nitrogen based fertilizer prices continue to ease but farm diesel continues its sharp rise. The feeder cattle and calf markets have once again declined. Since the market highs on the week of June 26th, five-weight steers have declined 81.00 per hundredweight from 5.09 to 4.28 currently and eight-weight steers have fallen 46.00 per hundredweight from 3.84 to 3.38 per pound.
